

# Wordsheets™

Create *crossword*, *word search*, and *word scramble* worksheets from your own list of words and clues.

Everyone can use Wordsheets software to create high quality, custom puzzle worksheets with very little time or effort. Type in any list of words, choose the style, and Wordsheets does the rest of the work. It's quick, easy, and automatic!

The printed worksheets are educational and fun, especially when you personalize them specifically for the group trying to solve them. Custom puzzle worksheets are also great for "get to know each other" games, as holiday diversions, in newsletters, and at reunions.

## Wordsheets Features

### Designed for educational use

- Very fast & automatic - looks great without taking your time
- No limit to the size of clues and a nice layout even when they're long
- Use words or clues or both with any puzzle type
- Include a line for student's name and/or for the class name
- Easily print a different unique worksheet for everyone

### Options for varying skill levels

- Eliminate backward and/or diagonal words in a word search
- Limit the size of a word search
- Include a word list on the crossword or include a few of the answers
- Include a few letters of the answers in scramble puzzles

### Flexible

- Create crossword, word search, and word scramble puzzles of all kinds
- Create crosswords that don't use clues (words listed in length order)
- Create crossword & word search matching games with words & clues
- Create word searches with clues instead of words
- Portrait and landscape styles for all puzzles
- Save your own print & generation styles with your most used settings
- Export as GIF, BMP, metafile, or ASCII
- Worksheets automatically look great on one or two pages  
(Layouts and font sizes automatically adjust to fit)

### Liberal license agreement

Each license may be installed on one computer at work/school *and* at one person's home.
